

At Great Minds, we believe every day is a chance to build knowledge – even when schools are out. Three-quarters of our more than 800 employees are or have been teachers, so we understand the pressure you are under at this time to keep your students on track.

We are sharing, free to anyone—recorded daily lessons in grades **K-12 of Eureka Math**, **K-8 of Wit & Wisdom**, and **3-5 of PhD Science**. These lessons will be delivered by Great Minds' own teachers and teacher-writers and will be viewable on any device, even a smart phone.

As your Great Minds representative in North Carolina, I wanted to make sure you are aware that we are offering these free resources which are great for not only teachers but also parents and students. Visit our [Knowledge On The Go](#) website to view these virtual math, English language arts and science lessons and access written materials for our Eureka Math curriculum, which is a free, open education resource available to anyone, anywhere.

We are also temporarily offering our *Eureka Math* Digital Suite at no cost to teachers and parents until further notice. To begin using the *Eureka Math* Digital Suite, please follow these 2 simple steps:

1. [Sign up for free](#) or [Sign in](#) to [GreatMinds.org](#) website
2. Add the [Eureka Digital Suite – 30 Day Trial](#) to your Great Minds dashboard by clicking the “Add to Dashboard” button

Utilizing the Eureka Digital Suite trial will give you [full access](#) to both the Eureka Navigator, our Pk-12 clickable curriculum with additional downloadable PDFs and hyper-linked standards activities, and the Teach Eureka series, which includes PK-12 grade-level teacher videos to assist with concept development and at-home teaching.

Our partner Didax also has [free virtual manipulatives](#) that your teachers, parents and students can utilize to enhance instruction and learning while schools are closed.

Visit our [Knowledge on the Go FAQ](#) page if you have any questions about these specific video lessons and resources for supporting your teachers, students and parents with learning at home. If you have any questions about our curricula and offerings, please don't hesitate to email or call me.

Stay safe and healthy, and keep building knowledge as we work through these unique times together.

Best,

**DAKOTA KONDAS**
